The regular examination of the condition of the American Surety Company of New York, which the law requires the Insurance Department of the State of New York to make, has recently been completed. In accordance with the established practice, this examination was made in conjunction with the Insurance Department of the State of Maryland.

The examination was made as of September 30, 1914. Its thoroughness is attested by the fact that it required the services of a corps of examiners for a period of more than three months to perform the work.

Notwithstanding the magnitude of the Company's operations, the report does not contain a single unfavorable criticism of any feature of the Company's condition, business or management. The report concludes as follows:

"A thorough and comprehensive examination of the affairs of this company has been made and the report shows the company to be in sound financial condition. The surplus over all liabilities has been reduced from \$657,685.84 reported by the Company on September 30, 1914, to \$455,323.67, as a result of this examination. This is due to many changes as set forth in the preceding summary of changes.

"The Company's reserves for losses and claims are adequate, the increase in this reserve being due to delayed notices for losses, of which the Company had no knowledge on Sep-

"The management is efficient and conservative, great care being exercised in its underwriting, investigation of risks, and supervision of agents."

This Company is accepted by the Federal Government as sole surety on a larger bond than any other company. It is the largest Company in the world transacting a fidelity and surety business exclusively. It has forty Branches in the United States. More than 13,500 local representatives report through these Branches.

F. W. LAFRENTZ, President

GOSSIP OF WALL STREET.

is no doubt that a contributing cause, been letting go. The road's earnings in the case of the industrials at least, was overtrading. The further collapse But well informed people say that the was overtrading. The further collapse tyear, 236,495 (165,375) (16 strong market and it has also seen of the war, which is affecting living ex-the way the same stocks act in a weak penses in every way. market. The Speculative Position.

The question asked last night was now the long position was standing the remarkably narrow one under the cirstrain imposed by the swift fail in prices hat has taken place. As regards the character of the speculative position an increase in the supply by the re-that has been built up there have been no indications that in the main it is not a sound one. For the time being the market had plainly been overbought and there were signs that in some quarters speculative excesses had been indulged in. Nevertheless, it was not evident that in other stocks included 16,100 the speculative account is based on sienhare of Amalgamated Copper, 12.680 der margins. The class of speculators hare of Reading, 4.420 shares of West-playing with slim margins and stops has been. sensational drops in one or two individual issues some time since had rather discouraged that sort of thing. Margin clerks were busy last night sending out calls for protection, but from all accurate the course of a supercust course of a supercust course of the course of a supercust course of the course of th calls for protection, but from all accounts these were not numerous, comparatively speaking. Also there is nothing to suggest that they will not be responded to promptly. The downward movement in some of the specialties has resembled a collapse rather trading was resumed and sales were made no better than 69 and as low as than a reaction. On the other hand made no better than 69 and as low as prices are not low enough in the main 65%. to affect seriously the main position un-less, indeed, there has been overrading on an unsuspectedly large scale.

Copper Shares.

There was quite a little buying of he copper shares based on inferences drawn from the increase in the Calumet and Hecla dividend rate. It is stated that the Lake brand of copper produced by the Calumet and Hecla is peculiarly adapted for war uses and that this fact is responsible for the rapid recovery in the fortunes of the company.

this despatch, that the Corporation had received further orders for war material aggregating \$83,000,000. Also it was announced that the company will earn and a further 150 per cent. In 1916. The remarkable thing is that Bethlehem Steel actually advanced following the

Some of the selling of Canadian Pa-

points below the recent top. A more important influence than traders' selling has, of course, been at work in Canadian Whatever the particular excuse for Pacific. European stock has been com-

has suggested persistent pressure. Ever since the reopening of the exchange Reading has been heavy. The stock did not have a rise at all proportionate to that in other quarters of the list. Its range this year of 17 points has been a cumstances. The action of the stock has been so abnormal in this respect that there have been constant rumors of interest in Reading that was being liquidated. Now it is that formerly held by the Lake Shore and recently absorbed by the New York Central. But whatever the cause for chronic heaviness this development has comparatively little general significance marketwise.

A news agency printed a Boston des

patch claiming a very superior brand of knowledge in regard to Bethlehem Steel affairs. It was "understood" in "well informed" quarters, according to this despatch, that the Corporation had this sort testify to the ultra speculative temper of the Street and to the incen-tive to much of the recent furious buy-

Custom House Receipts.

jumped to sell it. The theory was that being essentially a London stock the market there should reflect disturbances in the outside world most, just as it has done in normal times. The stock broke to 152½, which is only some 5 points

partly for refining account. Tenders of Reading is another stock that has an additional 1,100 barrels were depressdividend paying shares at high prices.

Possibly liquidation from this source has not been entirely completed. Nevertheless the partial collapse of the boom has undoubtedly removed a danger point from the path of the market.

Reading is another stock that has an additional 1,100 barrels were depressing. The declines in lard and cotton who like to speculate on the short side oil was easier at 42 cents. Values were has encouraged bearish hopes. The tape has encouraged bearish hopes. The tape has suggested persistent pressure. Ever
